OVERVIEW

A motivated and detail-oriented Frontend Developer with hands-on experience in React.js, HTML, CSS, and JavaScript. Passionate about building responsive and user-friendly web applications. Strong problem-solving skills with a solid understanding of Java fundamentals. Eager to contribute technical expertise and creativity to a dynamic development team while continuously learning and growing in the field of web development.

SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS3

Frameworks: React.js, Bootstrap

Databases: SQL, PostgreSQL, MongoDB

Version Control: Git

PROJECTS

INVENTORY MANAGEMENT SYSTEM FOR RETAILERS

The objective of this project is to develop a robust, scalable, and secure Inventory Management System for retailers using Python Flask as the backend framework, Bootstrap for responsive UI, and leveraging IBM Cloud for hosting and data storage. The system will utilize Docker for containerization and Kubernetes for orchestration, ensuring seamless deployment and scalability across multiple environments.

BLOOD BANK MANAGEMENT SYSTEM

The Blood Bank Management System is a web-based application designed to efficiently track blood donations and manage blood inventory in a streamlined manner. This system aims to enhance the operational efficiency of blood banks by automating donor management, blood collection, storage, and distribution processes. It serves as a comprehensive platform for blood bank staff, donors, and hospitals, ensuring timely access to blood when needed.

RED BAMBOO RESTURANT-CLONE

A responsive and visually appealing web application replicating the user experience of the original restaurant website. Implemented interactive UI components using HTML, CSS, and JavaScript, ensuring smooth navigation and an engaging user experience.
